Hi, this is *Chris*.

And let me tell you, you will definitely thank the day you downloaded these “**10 Naughty Texts**”...

You may think that 10 texts are not much, but I want you to know – they come from real life – I spent a lot of time searching for these, and since I am a man myself...I know – with these short sentences you can make any man's body SING with desire for you.

You may have met him today, or have know him for years – they are just as effective REGARDLESS.

How to use these texts? Some of them you can just send out of the blue, and make your man embarrassingly desirous (what a phrase!) of you wherever he is. (hint – his pants bulging right before a talk at an important meeting)

**How to make them work?**

You may think to yourself – but I have never done dirty texting, wouldn't it be weird if all of a sudden I begin sending these messages?

It is true that if you usually don't have conversations like this, you must adapt the texts to your style – meaning don't choose the wildest texts if you're a supper conservative girl who can't even say dirty words out loud... Tease him. Build it up. Have a playful attitude.

Sometimes even an innocent “I want you.” Can drive men will. This has happened to me.

I once I received a text from 1 girl I had just began seeing – I was going back home, and there was this innocent “I want you!!!”.

And you know why it was powerful? Because this was such an UNCHARACTERISTIC thing for her. She was shy. I wouldn't have imagined in a million years that she would be the one to initiate a conversation like that. So it made it real and 1000 times more powerful. So even if you're shy, it doesn't matter. You now have a way that will get his mind and desire focused on you, all day.

So here it is – you can edit these texts or copy paste them. The best way to make them effective is to *KIND OF* tweak them. They work in any case – men do not really analyze

these things. You send them a message, it creates a picture  
in their head...and bam. You're in (his head)

*Now. Enough teasing.

## Here are your 10 “Ready-To-Send” Naughty Texts ...

1. All I can think about is... how I want you...next to me...naked...sweaty...

*(This is very powerful. You can send it all at once, or you can send the different pieces one by one – first text “All I can think about is...”, then wait a few seconds... then the next part and so on. If these types of messages are uncharacteristic for you, you can start with a “I don’t know what’s happening to me but.../ I don’t know what’s gotten into me but.../ I don’t know what you’ve done to me but”)*

2. I can’t believe I am texting you this...but my head is full of naughty thoughts and my body is aching for you... Just wanted to let you know ;)

3. I had a naughty dream last night and you were in me...

*I mean, it!!! (text first part and then immediately the second part. Act embarrassed and then blame him and tell him it's all his fault for making you act like a little girl)*

4. I want your skin on my skin... It's all I am thinking about right now... *(or It's all I've been thinking since... "this morning/ I saw you do X/")*

5. Hey... you know what? I wish you were here... you know just how to make me writhe in pleasure...

6. My body is burning and aching when I think about how it feels when you make me yours... *(when you enter me, when you do*

*x – what you specifically like or what he specifically likes)*

## **7. I get so wet just thinking about you.**

*(about your arms, about your xxx... about how you do xxx... about last time... about the time you xxx (went down on me, made me scream in pleasure etc.) about how make me xxx – fill in the x to fit you.)*

## **8. Guess the color of my panties...(then**

*tease him, tell him you are wearing none, or you want him to relieve of you of their burden, or regardless of his answer say something like “The color doesn’t matter anyway, the important thing is I want them off and you in. And I am work/at grocery store/ at X. Can’t believe you’re making me think such thoughts. You jerk!”)*

## **9. I can’t wait to show you what I’m wearing... I think you’re going to love it**

*(again this can be a specific outfit, or you can just playfully*

*text the next message “I am only wearing my contact lenses... the only thing missing is your body.”)*

**10. I am wearing nothing but my contact lenses... Come home. Now!** (you don't wear contacts? “I am wearing nothing but eye shadow (or smth like that, girls, you know more than me about make up.)/ I am wearing nothing but the bathroom towel, and I want it off/ I am wearing nothing but the little after-shower droplets of water...come home!)

Alright. We're done with the examples. The thing is – the sky is the limit. You can improvise from these, you can change them to your style, or you can stack them one after another.

Now, If you have never done texting like this before, some

may sound cheesy and over the top – but let me reassure you – they are not.

Their goal is to make him think of you, and get him burning...and they will. Again, I am saying this as a guy. They will drive him CRAZY.

The truth is – once you start sending naughty texts, it is going to get easier and more natural. Again – begin with something more innocent (if you're new to this).

Now that you know how to focus his attention, his desire, his lust on you... what's the next step? Since I believe that if you're reading this, you're one of the few people who is actually willing to take responsibility for their sexual life – and since women can be unbelievably powerful forces when it comes to sex, but most aren't coming nowhere near their potential, I think the best way to unleash that power is by watching [THIS VIDEO](#).

A soccer mom teaches you how to get your man OBSESSED with you... without even touching him. She not only gives out hundreds of sexy texts like these, all done for you, but she

teaches a FULL BLOWN COURSE on how to make your man crazy about you. It basically covers everything you need to become a seductress, an enchantress, to make you irresistible to your man. You learn exactly what to do/say in the bedroom, outside the bedroom, before the bedroom, after the bedroom...Well, I can go on, but just take a few minutes see what it is about – there's tons of stuff in there – I promise you will not regret it.

P.S. Why am I sharing this? Because sex is essential to any relationship and it is the thing that can destroy it or make it magical. As a woman – you have that power. And frankly I am sick of crybabies – be it men or women. You can improve your life – period. When there are people out there who will teach you the ins and outs of how to make your man crazy about you, and you don't know about them – it 's one thing. It is not your fault, because you didn't even know that something like that was possible.

But now that I have opened the door for you, you know that

there are people who present you with other options – instead of being a creature of circumstance, you can learn to cultivate sexual chemistry – so it is now your responsibility. If you want a better relationship, if you want your man to want you and only you, if you want to feel irresistibly desired... and you don't know how to do it – you get to learn about these stuff. It's a new and exciting journey of learning something fun. Why? Because it is possible. And you owe it to yourself, and you owe it to your man.

Make your man sexually obsessed with you without even touching him.
